

DEVELOPMENTAL TRIGONOMETRY MTH 7 Online

INSTRUCTOR INFORMATION

Name: Dr. Pablo Chalmeta
Phone: 540-674-3600, ext. 4266 (or 4115)
Email: pchalmeta@nr.edu
Office: Godbey Hall, Room 48 (or Mall 115A)
Website: www.nr.edu/chalmeta

IMPORTANT:

- The recommended browser to use with the current version of Blackboard is Mozilla Firefox. Other browsers are inconsistent in their performance with Blackboard. When taking tests or quizzes, USE a wired connection.
- Check your VCCS email regularly and respond/keep in touch with your instructor.

COURSE DESCRIPTION

Description: Covers topics including right triangles, oblique triangles, trigonometric functions, identities and applications. Develops the mathematical proficiency necessary for curriculum entrance. Credits not applicable toward graduation. Placement recommendation for MTH 07 and Algebra I and Algebra II equivalent.

Credits: 2
Assessments: 3
Proctored Assessments: 3
Online Activities: Required

COURSE MATERIALS

Textbook: Calculus I with Precalculus: A One-Year Course. 3/e 2012 by Larson, Hostetler, and Edwards ISBN for textbook bundle 978-1133501497

Software: Enhanced WebAssign (bundled with new text from bookstore)

Calculator: A scientific calculator is recommended for this course. The testing centers on campus will provide TI-30X IIS calculators for you to use on the test. ONLY the testing center issued calculator will be allowed on the test, no exceptions.

Note: NRCC assumes no liability for virus, loss of data, or damage to software or computer when a student downloads software for classes.

The Student's Guide to Distance Education is available at <http://www.nr.edu/de/pdf/stuguide.pdf>.

This course requires a folder for graded materials. **You must choose a graded folder location by February 6, 2015.** Copy and paste the following link to your browser to choose either the main campus Testing Center or the Mall Site: <http://www.nr.edu/de/folderloc/picloc.php>

COURSE INFORMATION

Prepared By: Pablo Chalmeta

Approved By: Dr. Janice Shelton

A. INTRODUCTION

This is a Distance Education course designed specifically for those students whose learning styles are best served by providing instructional opportunities beyond the traditional classroom setting.

This class presents Trigonometric functions, limits, continuity, and differentiation of algebraic and transcendental functions with applications.

B. COURSE OUTCOMES

In this class you will be learning about Trigonometry. The examples are designed to show the applications of the material and show that the math you are learning can be useful. This is a required course in most curriculums and it will transfer the same as the non-DE version.

You will complete MTH 07 using the video lectures provided by the Distance Education (DE) department. The videos contain both lectures on the material as well as example problems. The course notes have been typed up and posted in PDF format on the course webpage and in Blackboard. Some sections of the notes are intentionally left incomplete, but the details are on the video lectures. You will be able to progress at your own rate through the lectures to complete the objectives within the confines of the test schedule.

C. COURSE CONTENT

1. Use degree and radian units to measure angles.
2. Place an angle in standard position on the axes.
3. Determine the reference angle for an angle in standard position.
4. Define the trigonometric functions.
5. Evaluate the trigonometric functional values for an angle in standard position.
6. Apply the inverse trigonometric functions to solve for particular angles.
7. Define the circular functions.
8. Graph the trigonometric functions.
9. Solve trigonometric equations.
10. Law of Sine and Cosine.

D. INSTRUCTIONAL PROCEDURES

Testing: Tests must be taken in the DE Testing Center in Martin Hall, at the NRV Mall site, or through an approved proctor if you are out of the service. Please check course schedule and take the tests on or before the scheduled dates to remain on track for successful completion of this course. **Refer to the Testing Information folder in Blackboard for more information about on and off campus testing.**

Graded tests will be kept in the student's folder in the DE Testing Center or at the NRV Mall site, depending on where the student requested it be housed. Students can contact their instructor through a variety of avenues: phone, voice mail, E-mail, mail, face-to-face during office hours, or by appointment.

General announcements for the course will occur on an as-needed basis. Updates to course information and test solutions can be found in Blackboard <http://learn.vccs.edu>. Updates to course information will also be done through the course webpage at <http://www.nr.edu/chalmeta>.

E. GRADING/EVALUATION

Homework: Giving your best effort on homework is the single best thing you can do to help your mathematics. As such, the homework will be submitted through the Enhanced WebAssign software and will count for a significant portion of the grade (17%). The Tutoring Connection on the main campus also has qualified tutors who can work with you on a regular basis.

Tests. There will be two (2) written tests given during the semester. There will be no make-up tests. Any missed test will receive the score of "0". See Final Exam below. Tests may be taken early with reasonable notice. *The average on all tests will count as 60% of the course grade.*

Final Exam. There will be one comprehensive final given during finals week. The score on the final can also be used to replace the lowest test score (including any missed test.) *The final will count as 20% of the course grade.*

The final grade for the course will be determined as follows:

Description	Points
Written Tests (2)	60%
Introductory Quiz	3%
Homework	17%
Final Exam	20%
Total:	100%

2. Grading Scale:

Grade	Final Average
S	A final average of 70 or higher.
U	A final average below 69.
I	An "I" grade can only be given if a student has an average of 75 or higher, and is unable to take the Final Exam.
W	The college Withdrawal Policy will be followed.

NOTES:

1. If the school is closed on a test day, then the test will be due on the first day the school opens.

2. Keep in mind that you might hit a trouble spot somewhere, so you should **MOVE AS FAST AS YOU COMFORTABLY CAN, BUT AS SLOWLY AS YOU NEED**, in order to meet the deadlines for the written tests. The written tests **MUST** be taken on or before the scheduled dates; however, you'll be free to "work ahead." If you want to take a test before the scheduled date, you must give me a 24-hour notice.
3. I do not curve grades. I do not "give" grades. You earn what you get, so plan to work accordingly.

Calculator: A scientific calculator is recommended. The testing centers on campus will provide TI-30X IIS calculators for you to use on the test. **ONLY** the testing center issued calculator will be allowed on the test, no exceptions.

F. WITHDRAWAL POLICY

Student Initiated Withdrawal Policy

A student may drop or withdraw from a class without academic penalty during the first sixty percent (60%) of a session. For purposes of enrollment reporting, the following procedures apply:

- a. If a student withdraws from a class prior to the termination of the add/drop period for the session, the student will be removed from the class roll and no grade will be awarded.
- b. After the add/drop period, but prior to completion of sixty percent (60%) of a session, a student who withdraws or is withdrawn from a course will be assigned a grade of "W." A grade of "W" implies that the student was making satisfactory progress in the class at the time of withdrawal, that the withdrawal was officially made before the deadline published in the college calendar, or that the student was administratively transferred to a different program.
- c. After that time, if a student withdraws from a class, a grade of "F" will be assigned. Exceptions to this policy may be made under documented mitigating circumstances if the student was passing the course at the last date of attendance.

A retroactive grade of "W" may be awarded only if the student would have been eligible under the previously stated policy to receive a "W" on the last date of class attendance. The last date of attendance for a distance education course will be the last date that work was submitted.

Late withdrawal appeals will be reviewed and a decision made by the Coordinator of Student Services.

Instructor Initiated Withdrawal

Students who have not posted ALL materials by the last day to drop the class and receive a refund must be withdrawn by the instructor during the following week. No refund will be applicable.

The instructor will withdraw students who have not completed ALL assignments on Blackboard by the last day to receive a "W".

Students who do not turn in assignments will be withdrawn at any point in the semester. Failure to turn in assignments is considered non-attendance in the course.

No-Show Policy

A student must either attend face-to-face courses or demonstrate participation in distance learning courses by the last date to drop for a refund. A student who does not meet this deadline will be reported to the Admissions and Records Office and will be withdrawn as a no-show student. No refund will be applicable, and the student will not be allowed to attend/participate in the class or submit assignments. Failure to attend or participate in a course will adversely impact a student's financial aid award.

G. CHEATING/PLAGIARISM POLICY

A grade of zero will be awarded to any writing assignments or tests that show cheating or plagiarism. To plagiarize is "To use and pass off as one's own the ideas or writings of another." (Definition adapted from the American Heritage Dictionary.) Remember that plagiarism includes lifting words or ideas from Internet sites, as well as copying from print sources.

H. DIVERSITY STATEMENT

The NRCC community values the pluralistic nature of our society. We recognize diversity including, but not limited to, race, ethnicity, religion, culture, social class, age, gender, sexual orientation and physical or mental capability. We respect the variety of ideas, experiences and practices that such diversity entails. It is our commitment to ensure equal opportunity and to sustain a climate of civility for all who work or study at NRCC or who otherwise participate in the life of the college.

New River Community College does not discriminate on the basis of race, color, national origin, sex, disability, or age in its programs and activities. The following person has been designated to handle inquiries regarding the non-discrimination policies: Dr. Mark C. Rowh, Vice President for Workforce Development and External Relations, 217 Edwards Hall, 540-674-3600, ext. 4241.

I. DISABILITY STATEMENT

If you are a student with a documented disability who will require accommodations in this course, please register with the Center for Disabilities Services located in the Counseling Center in Rooker Hall for assistance in developing a plan to address your academic needs.

J. EMAIL POLICY

If you send me an e-mail, you MUST use your VCCS issued email address and include a **descriptive** subject line. Please remember to use complete sentences and follow the rules of grammar. The [Purdue OWL website \(click\)](#) has excellent information about creating a professional email. READ IT. Do not expect a prompt reply to your e-mails concerning last minute questions about an exam the next day. I will respond to your email within 24 hours.
