Spring activities discussed: Zach, not attending today, agreed to design the flyer for the “Slime your professor” food drive. We agreed to begin on April 2 and end with a sliming right before exams begin in May. The prior “pie your professor” was really successful, and we hope for another one this year.

Club discussed its service projects. No formal ideas were developed, but we do want to make that a large part of our program.

Club provided food

Next meeting is scheduled for March 20 weather permitting.
