New River Community College General Education Assessment Test Requirement

Congratulations on your upcoming graduation!

As a Fall 2017 or Spring 2018 New River Community College graduate, you are required to take a brief general education assessment test. Your completion of this test is essential for the college to continually improve its programs and services. The results of this test are confidential and will only be presented as groups. Individual assessment scores will not affect your graduation status in any way.

This test must be completed before you can submit your graduation application.

The test has 36 questions and should take no more than an hour to complete. The test is administered online and you can complete it at home, or at one of the computer labs in Dublin or the Mall Site.

Access the test by following the instructions below:

1. Go to <http://etsreadiness.ets.org> to start the assessment.
2. Click "Download ETS Proficiency Profile Browser" (middle of the page) and click "run" when the 2 dialogue boxes appear.
3. Enter Session number: **132382-148893510** (include hyphen)
4. Follow the instructions on the screen to complete the test

You will be asked to complete a screen requesting general information after you enter your session code. This information will include your student ID number. *Please make sure that you enter your seven digit student ID number correctly.*

A few things to be aware of before you take the test:

- The assessment requires you to use either:
 - Internet Explorer on PCs 
 - Safari on Macs 

Failure to use a browser other than these will cause the test application to fail.

- All pop-up blockers must be turned off.
- The assessment test does not work on phones or tablets.
- Anti-virus software can block the test from working.

If you are having trouble running the assessment test, you can run a system check (found under the heading 'Run System Check' at <http://etsreadiness.ets.org>). The page will look like this. Click the 'ETS® Proficiency Profile' tab circled in the picture.

ETS Listening, Learning, Leading® **ETS Online Assessments** November 12

Preparing for ETS Online Assessments administration:

Please complete the following site readiness steps on each computer that will be used to administer exams.

1. Run System Check

This System Check will help diagnose potential issues with your computer and internet connection. At the end of the check, you will be presented with information regarding your computer or internet connection, including a list of potential issues that should be corrected prior to exam administration. To start the System Check select a testing program from the following options.

ETS® Proficiency Profile **MFT**

iSkills **SuccessNavigator**

HEighten™ Outcomes Assessments

2. Download ETS Online Testing Browser

ETS Online Assessments (with the exception of SuccessNavigator) require the use of a secure delivery browser. This browser is the only software required to administer the online testing program. After performing the system check, you may download the ETS Online Testing Browser through which the assessments are delivered. Once
